Essentials Of Ophthalmology: For Medical School And Beyond

Highlights

This book features a wealth of frequently asked questions (FAQs) with answers to help students prepare for ophthalmology examinations. This second edition, comprising more than 1000 pages, has been fully revised to provide students with the latest information and advances in the field. Many new topics have been added. Divided into thirteen sections, the book begins with an introduction, followed by numerous questions for each part of the eye. The book concludes with a management summary of commonly kept examination cases and examples of case sheet writing. Key points Presents wealth of FAQs with answers to help students prepare for ophthalmology examinations Fully revised, second edition with many new topics Includes examples of case sheet writing and a management summary of commonly kept examination cases Previous edition (9789350901830) published in 2013

Postgraduate Ophthalmology Jaypee Brothers, Medical Publishers Pvt. Limited

The second edition of Manual of Ophthalmic Diagnosis has been fully updated to provide the latest knowledge and understanding of ocular disorders. Beginning with an introduction to differential diagnosis of ocular symptoms and signs, the following chapters describe diagnosis of numerous disorders within in each part of the eye. Each disorder is explained in a step by step format, describing the causes, clinical characteristics, investigation, differential diagnosis and treatment. This new edition includes suggestions for further reading and nearly 350 full colour clinical photographs and illustrations to enhance learning. Key points Fully updated, new edition providing latest developments in ophthalmic diagnosis Describes numerous disorders in each part of the eye Extensive further reading section Includes nearly 350 full colour clinical photographs and illustrations Previous edition published in 2005

Highlights of Ophthalmology Jaypee Brothers, Medical Publishers Pvt. Limited

Comprehensive Manual of Ophthalmology in which sufficient information has been provided in easy-to-understand language with a definite and uniform format. Many tables have been incorporated for summarizing key facts about different diseases. Enough standard colored illustrations will be of immense help. A short list of Further Readings has been added at the end of each chapter for those who want to pursue further on the particular topic. I consider this humble endeavor as a mini textbook of ophthalmology in a refreshingly reader-friendly fashion, which I presume will be quite useful for both undergraduate and postgraduate students, residents and even practicing ophthalmologists.

Aravind FAQs in Ophthalmology JP Medical Ltd

Revised and updated version of the last edition keeping its clear and systematic style intact with complimentary access to e-book with digital resources like MCQs, videos, animations • A new chapter on Nystagmus • Revised & updated topics enriched with additional photographs, figures and diagrams • Many disorders that were listed just by name in the last edition have been given small description for ready reference. • Complimentary access to e-book with digital resources: o University and PGMEE patterned MCQs o Procedure videos and animations • In-depth discussion of signs, symptoms and history taking • Practical tips and points useful in day-to-day clinical practice • Highlights applied anatomical and physiological principles underlining each procedure • Systematic presentation of information – each chapter devoted to specific system of eye

Refraction, Dispensing Optics and Ophthalmic Procedures Jaypee Brothers Medical Publishers

The third edition of Decision Making in Ophthalmology has been

fully updated to present ophthalmologists and trainees with the latest advances in the diagnosis and treatment of eye disorders. Presented in an algorithmic format using flow charts, the book covers all key topics in ophthalmology, with each algorithm outlining the decision making process that should be followed when diagnosing and treating a specific condition. Each flow chart is colour coded to allow easy differentiation between surgical, pharmaceutical and other treatments. Written by an extensive author and editor team from throughout the USA, this highly useful new edition includes nearly 300 clinical photographs, illustrations and tables. Key points Third edition presenting latest advances in diagnosis and treatment of eye disorders Presented in algorithmic approach using colour coded flow charts Extensive, US author and editor team Previous edition published in 1999

Key points Comprehensive guide to diagnosis and management of ocular diseases and disorders for trainees Fully revised, seventh edition providing latest advances in the field Highly illustrated with nearly 1200 images, figures and tables Previous edition (9789352501601) published in 2015

Clinical Examination in Ophthalmology - E-Book Jaypee Brothers Medical Publishers Pvt. Limited

This book is the latest volume in the Recent Advances in Ophthalmology series providing ophthalmic trainees and ophthalmologists with the latest surgical and technological developments in the field. Divided into 21 chapters, each section is dedicated to a specific topic, explaining symptoms, investigation techniques, imaging, differential diagnosis and treatment methods. The pros and cons of various surgical procedures are covered in depth. New to this volume is discussion on advances in lamellar keratoplasty, deep anterior lamellar keratoplasty, Descemet's membrane endothelial keratoplasty (DMEK), and a new technique – keratopigmentation. The text features nearly 400 clinical photographs, diagrams, flowcharts and tables to assist learning. Key points Latest volume in Recent Advances in Ophthalmology series Covers latest surgical and technological developments in the field Features new topics and nearly 400 images, flowcharts and tables Previous volume (9789386322784) published in 2017

World Clinics in Ophthalmology Recent Trends in Cataract Management JAYPEE BROTHERS PUBLISHERS

This new edition provides ophthalmologists and trainees with the latest information and advances in their field. Presented in question and answer format, the book begins with discussion on optics and refraction, followed by genetics and embryology. The next chapters cover the diagnosis and management of disorders in different parts of the eye. The third edition has been fully revised and updated, and new topics added. Authored by a recognised team of experts led by Prof Myron Yanoff from Drexel University College of Medicine, Philadelphia, the text is further enhanced by clinical photographs and illustrations. Key points Comprehensive review of latest advances in diagnosis and management of ophthalmic disorders and diseases Presented in question and answer format, fully revised third edition with new topics added Internationally recognised author and editor team Previous edition (9789350255766) published in 2012

Essentials of Ophthalmology Jaypee Brothers Medical Publishers The third edition of this manual has been fully revised to provide the latest developments in the diagnosis and treatment of common eye diseases. Disorders are arranged in alphabetical order and each condition is presented over two colour coded pages, with 'Diagnosis' (definition, symptoms, differential

diagnosis etc) on one page, and 'Treatment' (diet and lifestyle, treatment aims, prognosis etc), on the other. Authored by internationally recognised, Professor Myron Yanoff from Drexel University College of Medicine, Philadelphia, this new edition includes many new or revised images and illustrations and features two tables of contents – one listed alphabetically, the other by specialty, for quick reference. Each disorder includes its diagnostic code for record purposes. Key points Fully revised, new edition presenting latest developments in diagnosis and treatment of eye diseases Quick reference, alphabetically-ordered, colour coded format Contents searchable by disease name or specialty Previous edition published in 2007 Recent Advances in Ophthalmology - 14 JP Medical Ltd Essentials of Ophthalmology: For Medical School and Beyond is a concise reference text for the medical undergraduates and residents, but the contents will also benefit family physicians who really are the first line of eye-care givers in the community. Highly illustrated with 200 colour clinical pictures and illustrations, the book is written by the multi-disciplinary faculty of the Department of Ophthalmology, National University Health System, Singapore. The authors constantly asked themselves 'how much is too much' and deliberately attempted to weed out any 'excess' for the benefit of the target readers. The content is written in a point format with lucid language. Emphasis has been focused on information that constitutes essential ophthalmic 'core conditions and problems' of the current medical undergraduate curriculum. Every section in the book has 'learning objectives' and a 'take home message' to facilitate quick learning. The book embraces a practical guide to the study of ocular diseases, basic methods of investigations and treatment where applicable.

Textbook of Ophthalmology Jaypee Brothers Medical Publishers This two-volume set is a complete guide to the diagnosis and management of ophthalmic diseases and disorders. Volume One begins with an overview of basic sciences, ocular pathology, and clinical examination. The remainder of this volume and Volume Two discuss numerous diseases that may occur in different parts of the eye. The second edition has been fully revised and features many new topics including innovative techniques in cataract surgery, imaging modalities, pharmacotherapy, new surgical procedures, and much more. This comprehensive text is highly illustrated with nearly 1900 clinical photographs, radiological images, diagrams, tables and boxes. Key points Two-volume guide to diagnosis and management of ophthalmic disorders and diseases Fully revised, second edition with many new topics Highly illustrated with nearly 1900 photographs, diagrams and tables Previous edition (Vol 1 9780721672113 and Vol 2 9780721672120) published in 1980

Ophthalmology Review Jaypee Brothers Medical Publishers Modern Ophthalmology: The Highlights is a trilogy describing fifty major subjects in the field of ophthalmology, developed through a period of sixty years. More than 850 images help illustrate the developments throughout the years. The first volume discusses the birth and development of modern ophthalmology, refractive surgery and microsurgery, angiography, retinopathy and much more. Volume two covers the entire field of glaucoma, apoptosis, contact lenses, dry eye, keratoplasty and LASIK. Volume three examines cataract surgery, optical coherence tomography, eye conditions such as uveitis, herpes, cancer, keratitis and strabismus; ophthalmic plastic surgery and more.

Recent Advances in Ophthalmology-12 Lippincott Williams & Wilkins

Advances made in diagnostic and imaging techniques within the past years have revolutionized the clinical approach to, and the management of many ophthalmic diseases. Wavefront and Optical Coherence Tomography (OCT) have been incorporated as

basic tools of refractive surgery, in the assessment of vitreoretinal disorders, optic nerve pathologies, ocular tumors and ocular trauma. This book presents a comprehensive evaluation of current and emerging technologies used for clinical

assessment in ophthalmology, as well as an in depth discussion of retinal angiography, both anterior and exterior segments, OCT, VHF ultrasound and other advanced imaging methods and techniques.
