All About Thailand Quarry Books

"What's going on in this picture?" With

this one question and a carefully chosen work of art, teachers can start their students down a path toward deeper learning and other skills now encouraged by the Common Core State Standards. The Visual Thinking Strategies (VTS) teaching method has been successfully implemented in schools, districts, and cultural institutions nationwide, including bilingual schools in California, West Orange Public Schools in New Jersey, and the San Francisco Museum of Modern Art. It provides for open-ended yet highly structured discussions of visual art, and significantly increases students' critical thinking, language, and literacy skills along the way. Philip Yenawine, former education director of New York's Museum of Modern Art and cocreator of the VTS curriculum, writes engagingly

about his years of experience with elementary school students in the classroom. He reveals how VTS was developed and demonstrates how teachers are using art—as well as poems, primary documents, and other visual artifacts—to increase a variety of skills, including writing, listening, and speaking, across a range of subjects. The book shows how VTS can be easily and effectively integrated into elementary classroom lessons in just ten hours of a school year to create learner-centered environments where students at all levels are involved in rich, absorbing discussions.

Paper Craft Home Shambhala Publications

Product Description: In "To Each His Home: Inspired Interiors as Unique as their Owners", photographer Bilyana Dimitrova takes readers on a tour of eight extraordinary homes that unabashedly express the personalities of their free-spirited owners. Dimitrova's carefully crafted color photographs, accompanied by brief interviews with each homeowner, create vivid portraits of these one-of-a-kind American spaces. Highly varied in nature, the distinctive and captivating homes featured in this book have one remarkable thing in common: none are the product of a professional interior designer. The

homeowners in "To Each His Home" do not rely on professional training or draw inspiration from shelter magazines. Instead they allow their own likes and dislikes to guide their choices of the furniture and fabrics, colors and configurations.
