"I have read pretty much every rock 'n' roll biography there is worth reading, and you never know what to expect when you pick up a new book. Well, let me tell you Mark Weiss has raised the bar for rock 'n' roll books with *The Decade That Rocked*. Mark has always been at the top of his field, and the level of detail and quality put into this book is the ultimate testament to his rock n' roll photographic legacy." – Sebastian Bach "Mark is the real deal. He may not play the guitar, but that camera is his guitar. He's a rockstar." – Gene Simmons "Mark's energy, his creativity, his drive, his positive attitude and his enthusiasm that make him one of the legends of rock photography. It's why his work—both old and new—is still so in demand today. Mark Weiss inspires greatness in all he turns his camera lens on. But don't take my word for it. Just look at the pictures in this book." – Dee Snider "His pictures say as much as the music" – Rob Halford "He was one of the guys. He wasn't one of the 18 photographers you'd work with that day." – Alice Cooper "He had that instinct, to recognize our energy and use his technical talent to capture it." – Joe Perry "The Decade That Rocked breaches a level of intimacy that so many music photographers are lacking today. Each and every photo exemplifies the trust and the synergy between photographer and subject. You can feel the essence of the music in the live shots, just as vibrantly as you can feel the spirit and the essence of the musicians behind the scenes." – Screamer Magazine Mark "Weissguy" Weiss set an unmatched standard for rock photography. Starting out as a teenager by sneaking into concerts with a neighbor's 35mm camera, he embarked on a legendary career that took him around the globe and onto some of the most memorable album and magazine covers in rock history- featuring the likes of Van Halen, Ozzy Osbourne, Aerosmith, and Mötley Crüe to Metallica, Guns N' Roses, Bon Jovi, and KISS, and so many more. With 700+ photos, brand new interviews, and stories from Mark himself, *Decade that Rocked* is a monument to the photography, friendships, and legacy of an artist that helped define one of rock's most iconic eras. This career-spanning collection features: A unique lens on the golden age of rock: Never-before or rarely seen photos of legends like Van Halen, Ozzy Osbourne, Aerosmith, and Mötley Crüe to Metallica, Guns N' Roses, Bon Jovi, and KISS, as well as countless others whose sound and image defined the era. Exclusive interviews: Ozzy Osbourne, Dee Snider, Nikki Sixx, Joe Perry, Rob Halford, and many more recall their memories of this era-defining decade. Untold Stories: Relive Mark's unbelievable journey through rock history, from getting arrested for selling photos outside of Kiss concert to touring with legends like Van Halen, to photographing Bon Jovi's infamous "Slippery When Wet" shoot, shooting backstage at Live Aid with Black Sabbath, and so many more. Definitive Lens: Creem magazine readers ranked Mark Weiss as rock's top photographer of the 80s. His work has appeared on some of the most iconic album and magazine covers of all time. Captured from the unique vantage point of a photographer who lived and breathed the '80s in all its grit and glory, *The Decade That Rocked* brings to life the no-holds-barred sounds and sights that changed the world of hard rock and metal forever.

 Everyone wants to fight me until they have to be me. On the outside, people assume Tony "Rollon Rebel" is an angry, hell-on-wheels troll who's always in somebody's business. The truth is, Tony is much more than a mouth piece. He's not afraid to stand up to social media bullies and others who think they can throw rocks at him and hide their hand. Tony has spent the better part of his life advocating for people with disabilities, like him. From bringing awareness about the lack of ramps on public buildings to fighting for equitable accommodations in the classrooms, Tony has risked it all. But there is another side that many don't see. As a licensed therapist, people seek his help to solve their problems. Outside of his profession, he turns up as a fan and critic of some of your favorite television and reality stars. Some of his comments and interactions have caused some of the personalities to go live with stories they've made up about him. Hailing from Atlanta by way of St. Louis, Tony opens up about overcoming his naysayers, living in a wheelchair, discovering his sexuality, and learning to love and accept himself. With *Don't Get F+cked Up*, he finally gets to tell his side of the story. This is a cautionary warning to those who oppose him.

*Walk, Don't Run* Works of Rollin E. Becker

May 1968. Paris is awash with violence and public unrest. In a small cinema, where a surreal film is showing, another riot is taking place. Here, the enraged audience smashes up the auditorium, tear out the seats, and chase the film's director onto the street. This is the premiere of Jean Rollin's feature debut, *The Rape of the Vampire*. An outsider of French cinema, Rollin's films are unique and dreamlike. They offer tales of mystery and nostalgia, obsolescence and seductive female vampires with a thirst for blood and sex. It is a cinema at once strange, evocative and deeply personal. Funding his own projects, Rollin defiantly made the films he wanted to make and in so doing created a fantastique genre unlike any other. *The Nude Vampire*, *The Living Dead Girl* and *The Grapes of Death* are among those films now celebrated as the work of an auteur, one who confounds preconceived notions of 'Eurotrash' cinema. This book is devoted to the director and all his work, across all genres, including a nascent French hardcore pornographic film industry. Written with full co-operation from Jean Rollin, shortly before his death in 2010, it contains exclusive interviews and archive material.

Studies have shown the benefits of breastfeeding as having a positive impact on reducing illnesses, preventing disease, and reducing morbidity and mortality. The World Health Organization has recommended exclusive breastfeeding for the first 6 months of life to increase chances of positive benefits of breastfeeding. In order to increase those chances of beneficial breastfeeding for 6 months, health care professionals must improve practice starting right after delivery. More focus must be given to initiating breastfeeding within the 1st hour after delivery compared to waiting to initiate breastfeeding in the first 24 hours to increase the opportunity to breastfeed for the duration

of 6 months. Several changes must take place in order to ensure both mother and infant are provided with the assistance to successfully breastfeed. Those changes should start with education and staff participation.
