 First-year university is challenging, but counsellor Janet Miller promises that it doesn't need to be overwhelming. Whether you're transitioning straight from high school or have taken a gap year, this guided tour through first year demystifies the process – from registering for classes and making the most of orientation to prepping for exams. With wit and wisdom, Miller shares what she's learned from thousands of students who have walked the campus hallways before you. This book doesn't tell you what you should do. It tells you what you need to know so you can follow in their footsteps, hit your own stride, and thrive.

 I'm never going to finish this project on time. This is hopeless; everything's going wrong. Why do I try to do everything at once? A busy life is full of stressful situations — that's a given. But that doesn't mean there is nothing you can do. Your thoughts can actually affect the way your brain processes stress, for better or worse. Most of the time, our brains compound the problem, adding thoughts of self-doubt and frustration to already difficult situations. Stress Less, Live More presents a program based in

acceptance and commitment therapy (ACT) that can help you train your brain to react to stress in a different way. With the mindfulness and acceptance techniques in this book, you'll clear out mental clutter, enhance your focus, and concentrate on the present moment, so that you can channel your energy into what matters most to you. It's that simple. Learn to mindfully accept what can't be changed Find peace and contentment in the present moment Practice relaxation skills you can use to calm yourself in a crisis Make time for yourself by asserting your right to say 'no'

 Your wife is having an affair with my husband. It has caused some trouble in my marriage and I thought you should know. One phone call in December 2005 begins the compelling, unpredictable story of Fake Missed Connections. A child of divorce with an already fragile sense of trust, Lauer unravels at the betrayal, begins divorce proceedings, and moves back to Brooklyn where he spends too much time alone, fixated on the idea that a murderer from 1898 might be haunting his apartment. Eventually, as he starts to peruse online dating profiles, he becomes obsessed with "missed connections" precisely because they provide what online dating doesn't: a story. He begins writing phony missed connections to post on Craigslist and, though he feels a stab of guilt when he posts them, he is hopelessly intrigued by the responses he receives. Real documents illuminate Brett's dating adventures, from love (and hate) letters and instant message conversations to Brett's online

dating profile and wedding announcement. Fake Missed Connections is an unconventional yet deeply moving look at the modern search for love, the ways in which we fail to communicate, and the quest for a genuine moment of connection.

 This is the book about immigration detention that all Australians need to read. During the time of the Gillard government, 24-year-old Sydneysider Adele Dumont accepted a volunteer position to teach English to men in immigration detention on Christmas Island. She did not expect to find the work so rewarding or the people she met so interesting. When she was offered a job working at Curtin detention centre near Derby in Western Australia, she took it. Working at Curtin required her to live a fly-in fly-out lifestyle, feeling never quite settled in one place or the other. She lived in a donga when she was in WA, her life full of bus trips to the detention centre and the work she did there; back home in Sydney, she was overwhelmed by the choices people had and the things they didn't do with those choices. What kept her returning to Curtin were her students: men from many lands who had sacrificed all they knew for a chance to live in Australia; men who were unfailingly polite to her in a situation that was barbarous. Slowly, falteringly, these men learned her language and taught her things about their culture. No Man is an Island is the story that will make the issue of immigration detention accessible to far more interested Australians than any number of stern newspaper articles. It is a vividly told story that is full of characters and humanity. It is the story about immigration detention that all Australians need to read.

 After years of preparation and anticipation, many students arrive at college without any real knowledge of the ins and outs of college life. They've been focused on finding the right school and have been carefully guided through the nuances of the admissions process, but too often they have little knowledge about how college will be different from high school or what will be expected of them during that crucial first year and beyond. Written by an award-winning teacher, How to Succeed in College (While Really Trying) provides much-needed help to students, offering practical tips and specific study strategies that will equip them to excel in their new environment. Drawing on years of experience teaching at a variety of campuses, from large

research universities to small liberal arts colleges, Jon B. Gould gives readers the lay of the land and demystifies the college experience. In the course of the book, students will learn how to identify the best instructors, how to choose classes and settle on a major, how to develop effective strategies for reading and note taking, and how to write good papers and successfully complete exams. Because much of the college experience takes place outside of the classroom, Gould also advises students on how to effectively manage their cocurricular activities, work obligations, and free time, as well as how to take advantage of the typically untapped resources on every campus. With candid advice and insights from a seasoned insider, this guide will leave students better prepared not only to succeed in college but to enjoy it as well.

English teaching encompasses a variety individuals and contexts. Much has been written about their jobs (how to teach, what to teach, etc.) but very little about the people themselves... until now. In a series of interviews with current and former English teachers conducted in locations ranging from Rhode Island to Northern Iraq, Rory Fergus Duncan-Goodwillie provides an insight into the lives of the English teachers.

Catherine Sanderson's Social Psychology will help open students minds to a world beyond their own experience so that they will better understand themselves and others. Sanderson's uniquely powerful program of learning resources was built to support you in moving students from passive observers to active course participants. Go further in applying social psychology to everyday life. Sanderson includes application boxes on law, media, environment, business, health and education in every chapter right as the relevant material is introduced, rather than at the end of the book. This allows students to make an immediate connection between the concept and the relevant application and provides a streamlined 15 chapter organization that helps you cover more of the material in a term.
