Introduction To Engg. Mathematics Vol-I (U.P.) New Age International

Many books on Database Management Systems (DBMS) are

available in the market, they are incomplete very formal and dry. My attempt is to make DBMS very simple so that a student feels as if the teacher is sitting behind him and guiding him. This text is bolstered with many examples and Case Studies. In this book, the experiments are also included which are to be performed in DBMS lab. Every effort has been made to alleviate the treatment of the book for easy flow of understanding of the students as well as the professors alike. This textbook of DBMS for all graduate and post-graduate programmes of Delhi University, GGSIPU, Rajiv Gandhi Technical University, UPTU, WBTU, BPUT, PTU and so on. The salient features of this book are: - 1. Multiple Choice Questions 2. Conceptual Short Questions 3. Important Points are highlighted / Bold faced. 4. Very lucid and simplified approach 5. Bolstered with numerous examples and CASE Studies 6. Experiments based on SQL incorporated. 7. DBMS Projects added Question Papers of various universities are also included.

My manager told me, "Your job is to interview 60 size zero south Bombay women over the next few days. Take them out for dinner if you think they are not opening up adequately during your interviews." "Yours Sarcastically" is a 'not-so-diplomatic' take on the life of a 20-something person in contemporary India. It is his saucy journey from post graduate education to his experiences in selling mustard hair oil, his marketing stunts and his rich experience during his international management consulting experience along the Indo-Nepal border. Some of his professional experiences include: interviewing 60 size zero south Bombay women, negotiating with the right hand man of an underworld don, managing drunken brand managers at corporate off-sites, the extensive preparation done by sales people for 'surprise' visits by their bosses, and the hiring of cheerleaders by a premier consulting firm to turn around their client's fortunes. In his free time, he likes to write movie scripts for C grade movies, transform behenjis to blockbuster babes, visit top brothels in Mumbai and indulge in politics and backbiting. Along the way, he falls in love with his batch-mate and hankers after professional success. Needless to say, there is a villain who runs after the same lovely girl and the same crown of success. As the stakes keep getting higher, will this rollercoaster ride meet a dead end or will everything fall in place like any other happily ever after? "We love the way we have been portrayed in the book." - Sonali Singh, President, Association of Size Zero South Bombay Women
