The story of the Phantom of the Opera, a half-crazed musician hiding in the labyrinth of the famous Paris Opera House and creating a number of strange and mysterious events to further the career of a beautiful young singer, is today regarded as one of the most famous of all horror stories: widely mentioned in the same breath as Frankenstein and Dracula. Yet the fame of this novel is based almost entirely on the various film versions, while the original book has been largely ignored and is rarely in print. An Accelerated Reader® Title

Bound by undeserved scandal, two young debutantes find themselves unmarriageable . . . unforgettable . . . and unstoppable . . . An unjust fall from grace may have sent the formerly prim and proper Miss Dorothea Oakley-White into hiding, but she refuses to be silenced. Using a pen name, the brainy beauty takes great delight in skewering the hypocrisies of the ton in The Ladies' Moral Intelligencer. Only her latest target—the dashing rake, Lord Layburne—has hunted her down, demanding she stop her attacks at once. Spirited Dorothea promises she will—if only he can restore her rightful position in society . . . When Layburne discovers his nemesis is none other than lovely Thea, who blames him for the scandalous end to her

engagement, he's intrigued by the challenge she offers. But once he agrees to her conditions, he's enamored with the idea of seducing Thea himself. Will his powerful desire dishonor her forever? Or will it make the ton's most celebrated scoundrel a husband at long last? "Wickedly sexy and just as witty, Miranda Neville is one to watch!" —Lisa Kleypas

HellSans is set in a fictional UK, where HellSans is a ubiquitous typeface, enforced by the government in all communications and in all public spaces. It is the ultimate control device. The majority of the population experience bliss when they see the typeface, but there's a minority who are allergic to it. The HellSans Allergic (HSAs) are persecuted, and live on the streets or in a ghetto on the outskirts of the capital city. Jane Ward, CEO of the company that manufactures the Inex (a cyborg doll-like creature that has replaced the smart phone as the essential aid and accessory) has everything: fame and fortune, until she falls ill with the allergy and becomes embroiled in the government's internal power struggles. She loses her job and her wealth, ending up in the ghetto until she is rescued by Dr Icho Smith. Icho is a scientist who has developed a cure for the allergy, but she is on the run from the government and the Seraphs (the ghetto 'terrorist' group), who all have their own agenda for the cure. Jane and Icho work together, aiming to expose government corruption and bring the cure to the HSAs. HellSans is written in three parts. Parts one and two can be read in either order which provides a unique approach to the perspectives of the haves and have-nots in the run-up to the revolutionary conclusion.
